

Christchurch Northern Corridor Radcliffe Road Bridge

PROJECT UPDATE

31 AUGUST 2020

TRAFFIC ON RADCLIFFE ROAD BRIDGE

The Christchurch Northern Corridor (CNC) Alliance has completed the construction of the Radcliffe Road Bridge.

Traffic Impact

As soon as the chip seal has been applied two-way traffic will move over from the temporary road onto the new bridge, planned for early Thursday morning 3 September, weather dependent.

Work completion

Work started with the piling in June 2018. Close to 500 piles were installed to support the bridge abutments.

In October of that year we installed the beams for the bridge structure.

Speed limit

The temporary speed limit on the diversion road will be removed. The permanent speed limit on the bridge and Radcliffe Road will be 60km/h.

The temporary road next to the bridge will be removed and the landscape will be reinstated.

Thank you for your continued understanding and patience while we complete the motorway alignment in your area.

THE LIGHTS ARE ON!

We have tested the feature LED lighting behind the decorative aluminium panels on the local road bridges. They light up at night and the colour, tone and intensity can easily be changed to red for instance when the Crusaders play a home game.

The image shows the testing of the lights at the Belfast Road Bridge. All three local bridges (Belfast, Radcliffe and Prestons) have LED lighting and three different botanical patterns integrated onto both sides of the bridges.

MORE VISUAL PROJECT INFORMATION

The CNC project involves local road and motorway bridges, subways, roundabouts and a shared use path. If you would like to know more about our structures and our project management watch our video series on our project website: www.nzta.govt.nz/cnc

How to use the shared user path

This video shows how to use the shared path for pedestrians and cyclists along the new Christchurch Northern Corridor.

You can call us on **0800 262 200** or email us at info@cncalliance.co.nz or visit our office at 145 Winters Road in Mairehau, access from QEII Drive (left in and out only). Sign up for email updates online at www.nzta.govt.nz/cnc
