

Christchurch Northern Corridor Cranford Street

PROJECT UPDATE

02 APRIL 2019

NIGHT WORK ON CRANFORD STREET+INNES ROAD INTERSECTION

The Christchurch Northern Corridor (CNC) Alliance team is making good progress upgrading the storm water network on Cranford Street.

From Sunday 7 April we will work at night to install pipes across the Cranford Street/Innes Road intersection and across Cranford Street near the Cranford Oak Motel (McFaddens Road).

The work near the motel will take two nights (7 and 8 April) to complete. The Cranford Street/Innes Road intersection work is from 7 to 11 April and then from 14 to 19 April, with work starting around 7pm and finishes before 6am.

TRAFFIC IMPACTS

From Sunday night 7 April traffic will shift to one side of the road using the shoulder, and the footpath will be closed. Diversions will be in place for pedestrians. We will use concrete cutters (early evening use),

excavators and compactors to dig a trench, place the pipes, then fill in and reseal the trench.

There will be some noise from the machinery and the crew and extra lights on the road.

To ensure work can continue as programmed please avoid parking in areas where no-parking cones have been placed.

What's next?

Following the storm water works and constructing the new kerbs and footpaths we will install new traffic signals and signs, construct the central median, widen the road and install the final surfacing late in 2019.

A signalised pedestrian crossing will be installed near the McFaddens Road intersection to provide a safe crossing point half way between the motorway and the Innes Road intersection.

The improvements at the intersection includes widening the intersection, right turning arrows, new traffic lights to accommodate right turns and painted cycle lanes.

Working at night means the crew need lights to see what they are working on.

WE ARE SORRY!

You may have noticed that we stated a no-entry into McFaddens Road in our last notice. We changed the traffic set up after delivery of the notice. We are sorry we advised you incorrectly.

ANIMATED VIDEOS

More information on the central median, the u-turn bays and the Cranford Street roundabout is available on our website: www.nzta.govt.nz/cnc Click on 'videos' at the top of the page to learn where the u-turn bays on Cranford Street are and how to use them.

The video on how to use the shared path for pedestrians and cyclists along the new Christchurch Northern Corridor may also be of interest to you.

WHAT YOU NEED TO KNOW

- › Our regular working hours are Monday to Saturday between 7am and 7pm.
- › There will be noise and vibrations associated with the work. We will do what we can to lessen this.
- › Keep yourself, your children and pets at a safe distance from the work site. Please use the temporary crossings and follow the footpath diversion to cross the street safely.
- › All work sites are subject to weather and other unforeseen conditions.

You can call us on 0800 262 200, email at info@cncalliance.co.nz or visit our project office at 145 Winters Road, accessed from QEII Drive left in and out only or walk/cycle using Winters Road subway.
