

Christchurch Northern Corridor QEII Drive

PROJECT UPDATE

17 FEBRUARY 2020

STOP/GO AND ROAD CLOSURE AT NIGHT ON QEII DRIVE

The Christchurch Northern Corridor (CNC) Alliance team will be installing concrete barriers and pouring concrete at the new QEII Drive Overbridge. Stop/go traffic management will be in place on **Monday night 24 February and Tuesday night 25 February**. QEII Drive will be closed between Main North Road and Hills Road/Innes Road roundabout on the night of **Tuesday 3 March**.

In early February, we poured the concrete for the bridge deck and on 3 March we will be pouring the concrete to 'stitch' the placed barriers and the new deck together. Wet weather may extend the concrete pour by one or two nights.

Traffic Impact

Due to the high traffic volumes on QEII Drive during the day we will have to do this work at night. When we install the barriers on 24 and 25 February, traffic in both directions on QEII Drive will be stopped for up to 15 minutes. We don't expect the lift and placement of the barriers to take 15 minutes each time, however please expect delays, and if you can, avoid the area during the night works.

During the concrete pour on 3 March, QEII Drive will be closed in both directions, between Main North Road and Innes Road. There is no access to and from QEII Drive at Winters Road, Grimseys Road and Philpotts Road. The night work starts at 9pm till 6am the next morning. Traffic (excluding cyclists) on QEII Drive will be diverted at Main North Road and Innes Road roundabout.

Cyclists on the QEII Drive path are not affected by the road closure; the Winters Road and Grimseys Road subways are open as normal. People on Hills Road will still be able to turn left out of Hills Road heading east on QEII Drive.

Residents only, on QEII Drive and Winters Road-east, will still be able to access their homes via the entry gates at Philpotts Road. There will be a traffic controller with a pilot vehicle on site to escort you to and from your property.

There will be other work happening at night on QEII Drive as well so nearby residents will hear the noise from the machinery, a sweeper truck and the crew working at night.

GROWTH

Southern Interchange: the new motorway will go over QEII Drive on a bridge. Access to and from QEII Drive and the new motorway will be provided by double roundabouts.

DIVERSIONS IN PLACE

During the concrete pour on the evening/night of 3 March QEII Drive will be closed in both directions between Main North Road and Innes Road roundabout, see red line on the map. Diversions (green lines) will be in place via Marshland Road, Briggs Road, Hills Road and Innes Road or Cranford Street and Main North Road.

WHAT YOU NEED TO KNOW

- › Our standard construction work hours are Monday to Saturday between 7am and 7pm. Night work starts after 7pm and stops before 6am.
- › There will be increased noise and vibrations associated with most of the construction work. We will do what we can to minimise this.
- › Keep yourself and your children, as well as pets, at a safe distance from the work site. Please stay behind the construction fences at all times.
- › All work sites are subject to weather and other unforeseen conditions. Some jobs will finish early while others may be delayed or rescheduled.

You can call us on 0800 262 200 or email us at info@cncalliance.co.nz or visit our website at www.nzta.govt.nz/cnc or our office at 145 Winters Road (left in and out only from QEII Drive).
