

# Christchurch Northern Corridor

8 July 2019

## NIGHT WORK QEII DRIVE WEST UPGRADE

To complete our upgrade work on QEII Drive west we will have to remove the existing median island near the Main North Road intersection. This work will happen at night and starts from **7pm Sunday 14 July**. The work is planned in stages over several nights until 25 July. The crew will work from Sunday night to Thursday night.

### Traffic Impact

During this work, traffic in both directions near the island will reduce to one lane. A stop/go person will manage the westbound traffic on QEII Drive. This means traffic going westbound will be stopped at times to wait for moving work trucks and excavators. If you are travelling on QEII Drive, please expect delays, slow down near the work sites and take extra care. Expect delays of up to five minutes when stopped.

### Construction Impact

This work involves cutting and excavation equipment and truck movements. Nearby residents will hear the noise from the machinery and the crew working at night. The crew need lights to see what they are working on, so you may notice extra light coming from the road.

Thank you for your understanding and cooperation, we expect to complete our work on the QEII Drive west upgrade by autumn 2020.

Work on the QEII Drive west upgrade is progressing well.
