

Christchurch Northern Corridor SH1 night work

PROJECT UPDATE

27 OCTOBER 2020

SH1 LANE AND RAMP CLOSURES FOR RESURFACING WORK

SH1 traffic near the Waimakariri Bridge will be reduced to one lane nightly for four weeks for resurfacing work from **Sunday 1 November**. On and off-ramps will also need to close.

The Christchurch Northern Corridor (CNC) Alliance has completed the SH1 right hand lanes and will now start the resurfacing of the middle and then left lanes just north and south of the Waimakariri Bridge.

Traffic impact

When we do this work **from Sunday 1 November for four weeks** traffic at night will be reduced to one lane.

The traffic on SH1 near the bridge will shift so we can resurface the middle and then the left lanes.

Due to this set up for four weeks from 1 November:

- **Chaney's off-ramp will be closed day and night**
- **Tram Road on-ramp will be closed overnight**
- **Tram Road off-ramp will be closed at night for the first two weeks and fully closed for the second two weeks.**

A 50km/h speed limit will be in place during the work, this will reduce to a **30km/h speed limit** when the chip seal surface is new and needs to be bed in. Motorcycle riders please be aware of loose gravel.

This work should not create any significant delay overnight. Please expect delays around the ramp areas during peak hours. Diversions will be in place.

This work is weather dependent so may take longer than planned.

You can call us on 0800 262 200, email us at info@cncalliance.co.nz or visit our website at www.nzta.govt.nz/cnc or our office at 145 Winters Road, Mairehau, Christchurch.
