

# Welcome

## Maungatapu underpass is Stage 4 of the Hairini Link project.

In 2007 the Transport Agency and Tauranga City Council agreed the traffic flow from Cameron Road to the Maungatapu and Hairini roundabouts needed improvement.

The Hairini Link project is focussed on ensuring travel times and safety levels are improved as the volume of traffic increases in line with the predicted growth of the southern suburbs.

Today is about taking you through the stages of this project to date and what will happen next.
