SH1 / Barters Road / Pound Road Improvements : Templeton

November 2016

NZ Transport Agency has contracted Fulton Hogan to carry out the Barters Road/ Pound Road / Main South Road intersection upgrade. Work will include constructing a new road through the Waterloo Business Park with traffic signal controlled intersections, storm water and wastewater improvements, cycle lanes and a new railway crossing. The project is expected to take around 15 months to complete.

WHAT ARE WE DOING?

North of the Railway

Works have begun on site in the Waterloo Business Park. This work will be followed by the installation of a new storm water network and pond. Once the pipes have been installed under the ground we will begin constructing the new road. Both Pound Road and Waterloo Road, will be realigned to create a new traffic signal controlled intersection. The priorities at the Waterloo Rd/Barters Rd intersection will be changed to give traffic travelling on Waterloo Road priority over those on Barters Road. On road cycle lanes will be provided, as well as shared paths for pedestrians and cyclists.

South of the Railway

Works have begun with removing trees on Main South Road and Orion has partly completed work to underground the power lines. We will begin installing new storm water and wastewater main pipes, a new wastewater pump station, kerb and channel, and then road upgrades. Traffic signals will be installed at the new Pound Road and Main South Road intersection, as well as shared paths for pedestrians and cyclists.

Above: Work that is being carried out on the Waterloo Business Park site.

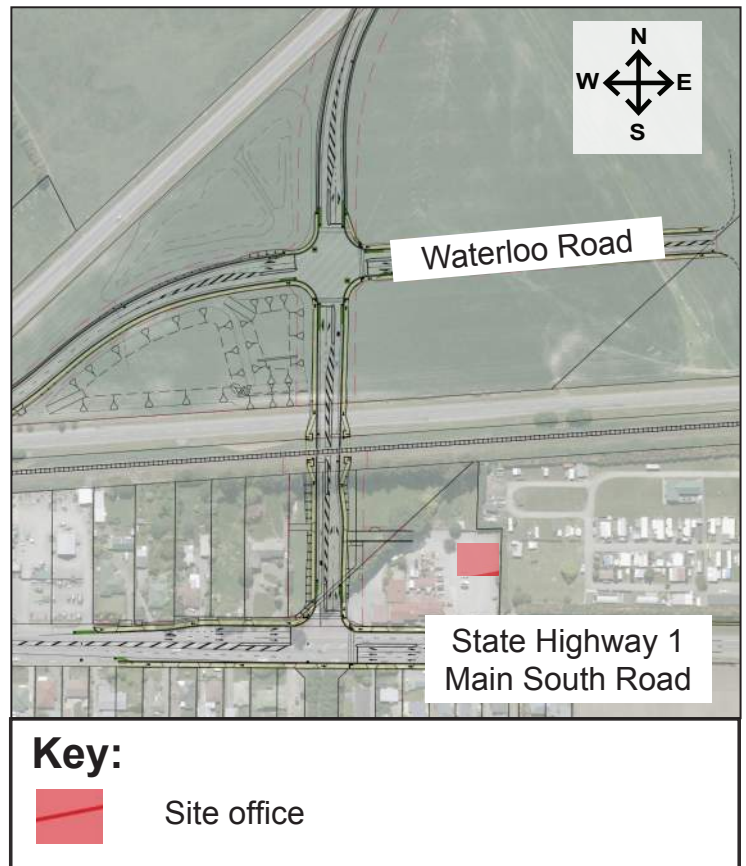

SITE OFFICE

- Our site office will be located in the car park of The Swamp and Little Sister Cafe.
- Feel free to visit us to have a chat about the project.

PROJECT BENEFITS

The Main South Road (SH1)/Barbers Road/Pound Road improvements will:

- Improve safety and access for traffic entering and exiting Main South Road from Pound Road
- Cater for the future travel demands created by traffic using the Pound Road bypass
- Cater for increased traffic from the Waterloo Business Park
- Improve connectivity and safety for cyclists and pedestrians

General Information:

Please contact Fulton Hogan on 0800 762 334 if you have any specific access needs: Nurse/doctor visits, Meals on Wheels, or planned works on your property.

Our usual work hours will be Monday to Friday between the hours of 7.00am to 6.00pm. Some work may be carried out on Saturdays with disturbance to be minimised as much as possible.

We will have measures in place to minimise increased construction noise, dust and vibration levels.

Works will have no planned impact on power, phone or internet, water or gas services. However, an unexpected service cut off may be experienced and if this happens this will be resolved as soon as possible.

All works are subject to weather and on-site conditions.
