

SH1 Tinwald Corridor Improvements

What	We'll be temporarily installing a one way traffic management system
Where	McMurdo Street, at the intersection with Agnes Street
When	From Tuesday 5 September, between 7am and 7pm for approximately one week. Our work is weather dependent and may need to be rescheduled to the following shift(s).

What are we doing?

From Tuesday 5 September, between 7am and 7pm for approximately one week, we will be working in the Agnes Street/McMurdo Street intersection. Our works will include installing new stormwater pipes which requires a one way traffic management system during this time.

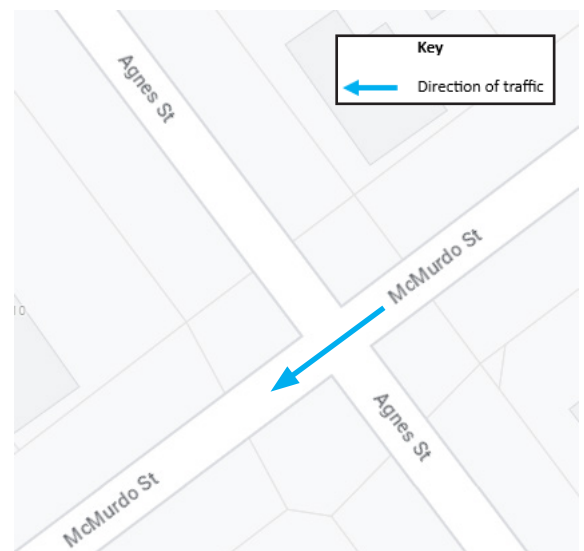

Traffic and pedestrian impacts

The one way traffic management system will be in place from Tuesday 5 September for approximately one week, between 7am and 7pm daily. Traffic will travel in a southbound direction so please use the signposted detour routes. This traffic management system will be installed in conjunction with the existing one way traffic management system on Agnes Street.

Please look out for our staff and follow their instructions. Footpath access around our work site will be maintained. Also, please look out for changes in traffic management and follow signs on site. A 30kph speed limit will be in place.

Driveway access

Access to properties will be maintained. However, we may need to work in front of driveways from time to time. We will try to give you plenty notice of this. However, if you need to get into or out of your property and we are in the way, please just talk to one of our friendly staff and we will make sure you can use your driveway.

CAN WE HELP?

Please contact Fulton Hogan on 0800 ROAD FH (0800 7623 34) Monday to Friday, 8am - 5pm, to discuss any specific access needs such as nurse/doctor visits or Meals on Wheels deliveries to your property. Contact us at anytime if the matter is urgent.
