

High Street, Motueka

New permanent speed limits

Electronic variable school zone signs are an enforceable speed limit that can be activated during peak school times. The school zone speed limit may operate from 35 minutes before school until the start of school, and from 20 minutes at the end of school, beginning no earlier than 5 minutes before the end of school. It may also operate for 10 minutes at any other time when vehicles are entering or leaving school grounds or there is pedestrian or cycling activity on the road outside the school. When the school zone is active, the speed limit is 40km/h and is displayed on an electronic sign. At all other times the speed limit is 50km/h.
