

# WHANGAREI IMPROVEMENTS SH1 / SH14 INTERSECTION

Improvements at the intersection of SH1/SH14 are currently underway, due to be completed in early May. The main pavement reconstruction and widening is near completion with final surfacing being applied after ANZAC weekend. The intersection will have new traffic signals, extra lanes, including free left turn lanes on each approach to reduce congestion at peak times. New raised median islands will be installed at each approach to improve safety for all road users.

## PROJECT OVERVIEW

- The intersection will be widened to improve capacity
- Pedestrian crossing and cycle facilities will be improved
- One extra lane will be provided in each direction
- A free left hand turn will be provided on each approach
- Solid raised islands barriers will be installed on each approach
- Residents in North Street will be limited to left turn only access to and from Maunu Road
