

# ENVIRONMENTAL AND SUSTAINABILITY POLICY

## WORKING TOGETHER TO PROTECT OUR ENVIRONMENT

Our mission is zero harm to our people, zero harm to our environment and zero harm to our business

To improve environmental and sustainability management within our business and meet our objectives the ASM will:

- **Use best practices** options to avoid adverse effects to the environment, including pollution
- Provide our workers with the **skills, awareness, and leadership** to achieve the ASM's environmental and sustainability objectives
- **Protect** and where possible enhance, important and sensitive environments within and adjacent to the ASM network
- **Comply** with all environmental legislation, regulations, and government policy requirement relevant to our business
- Continually seek **new and innovative ways** to use resources more efficiently and operate more sustainably
- **Improve the sustainability** of our officers, depots, and operations by using and managing resources efficiently
- Continually **improve our environmental performance** through maintaining, reviewing, and implementing our environmental management system
- Implement and **continually support and improve** the requirements ISO 140001 Environmental Standard
