

land transport at a glance

Wairoa District

Map of the Hawke's Bay Region

What is *Land Transport At A Glance*?

Land Transport At A Glance provides a brief overview of the state of the land transport system.

What does *Land Transport At A Glance* contain?

It contains key data that describes the contribution that land transport makes to the government's economic, social and environmental objectives for transport.

What is its purpose?

Land Transport At A Glance provides all approved organisations with an evidence base for decision-making.

Why do this?

The key strategic driver for providing data is the government's requirement that we be evidence-based and outcomes focused.

Timing

The release of *Land Transport At A Glance* coincides with the publication of the *National Land Transport Programme* (NLTP) by Land Transport NZ on 28 June 2006.

What are the limitations of the data?

This package is based on available data. There are gaps, which will be filled as quickly as possible. Where data does not presently exist, we will work with sector partners to obtain the data through research and other means.

Where does the data come from?

We have compiled data from a wide variety of sources and we will continue to refresh it from these sources. Sources of data have been stated under the graphs.

Is more data available?

A lot more data is available. A document containing detailed information about land transport is presently being prepared for release in December 2006.

Moving forward

In the long term the intention is to:

- publish *Land Transport At A Glance* each year in June to coincide with the release of the NLTP
- have land transport data available through Land Transport NZ's website.

Where can I get more information?

More information is available from the manager of performance information at your local Land Transport NZ office.

What if I have feedback?

Please contact the manager of performance information at your local Land Transport NZ office. We are keen to receive your feedback so that improvements can be made.

How do I contact land Transport NZ offices?

Wairoa District Hawke's Bay Region

Statistics for 2005

	Territorial Authority (TA)	Region	National	TA as % of region	Region as % of nation
Population ^D	8,410	149,500	4,098,900	6%	4%
Land area (km ²) ^D	4,124	14,164	275,446	29%	5%
Imports (gross tonne) ^{1D}		1,990,000	-		3%
Exports (gross tonne) ^{1D}		3,453,000	-		5%
Gross domestic product (GDP) (\$) ^M		5,133,000,000	148,551,000,000		3%
Total TA expenditure on land transport (\$) ^{T J}	8,993,000	47,425,000	873,924,000	19%	5%
Passenger transport - bus boardings ^J		415,000	86,666,000		0%
Passenger transport - rail boardings ^J		-	14,255,000		0%
Passenger transport - ferry boardings ^J		-	4,082,000		0%
Motor vehicles ^D	5,401	102,122	2,790,610	5%	4%
VKT (km) ^{V J}	40,000,000	1,455,000,000	38,874,000,000	3%	4%
Is congestion an issue?	No				
Social cost (\$) ^D	19,600,000	194,200,000	3,554,000,000	10%	5%
Deliveries of petrol & diesel (litres) ^D			6,075,000,000		
Energy use by transport (petrol + diesel) (MJ ²) [in 2004] ^D			186,800,000,000		
CO ₂ emissions from land transport (tonnes) [in 2004] ^D			12,505,000		
Local roads - all urban (km) ^J	59	682	16,820	9%	4%
Local roads - sealed urban (km) ^J	57	678	16,423	8%	4%
Local roads - all rural (km) ^J	812	3,416	65,434	24%	5%
Local roads - sealed rural (km) ^J	205	1,939	32,819	11%	6%
State highway - all (km) ^{4J}		506	10,894		5%
State highway - sealed (km) ^{4J}		485	10,838		4%
State highway - motorway (km) ^J		-	172		0%

¹ indicative only - based on 2002 data. This includes both inter-national and inter-regional freight movement.

² 1 MJ = 1 mega-joule = 10⁶ joules

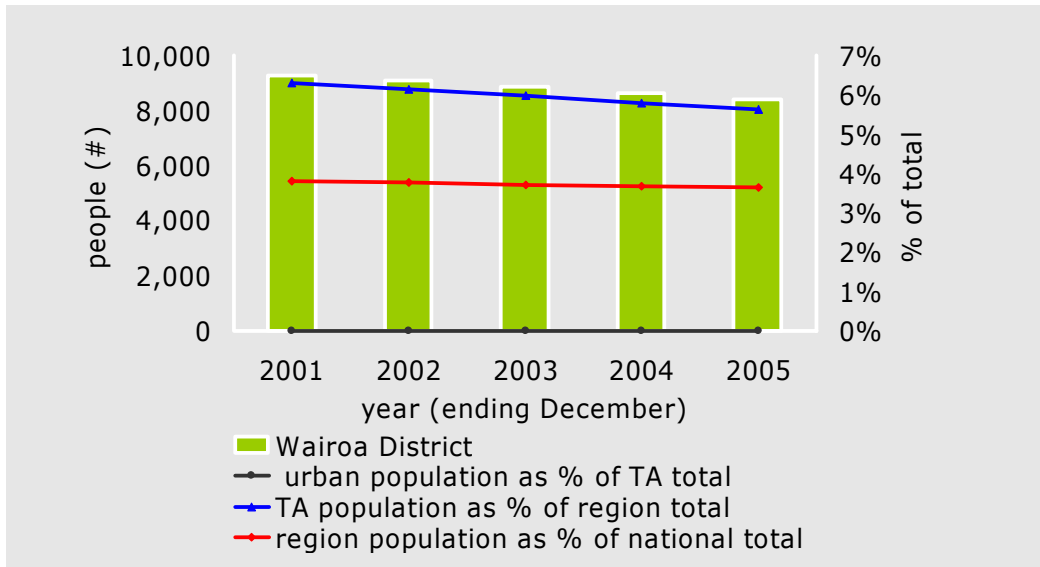

^D indicates year ending Dec; ^M indicates year ending June; ^J indicates year ending March.

^T Total expenditure covers local and national contributions to territorial authority expenditure. Regional Council and Transit NZ costs are excluded.

^V TA VKT = local roads. Regional and national VKT includes local roads and state highways
