

# New Zealand's toll roads

Find out how electronic tolling works and ways to pay

## How it works

It's pretty simple really. All you have to do is drive.

Waka Kotahi operates three toll roads – Takitimu Drive Toll Road (formerly Route K) in Tauranga, Tauranga Eastern Link Toll Road, and the Northern Gateway Toll Road north of Auckland.

The benefit of electronic tolling is that you enjoy an uninterrupted journey and can pay at your convenience.

**You don't need to slow down, stop or hunt for loose change.**

You simply drive under the toll gantry, just like you would under any sign structure, and keep your speed as you would on the open road.

No matter what lane you're in, or speed you're driving, sensors and cameras located in the gantry detect your vehicle approaching and will take a photo of your front and rear registration plates and use this information to assign the correct toll price.

## How much do I pay?

Toll road	Light vehicles including motorcycles	Heavy vehicles (over 3500kg)
Takitimu Drive Toll Road	\$2.10	\$5.40
Tauranga Eastern Link Toll Road	\$2.30	\$5.60
Northern Gateway Toll Road	\$2.60	\$5.20

# Ways to pay

Choose a payment method that suits you. You can set up an account and have all your tolls paid automatically or you can pay as you go.

## Pay as you Go

Paying as you go is suitable for casual or infrequent users of the toll roads.

### Pay & Go

Pay for your toll or multiple tolls on a single toll road per vehicle by going online or into selected service stations.\*

Go to [www.tollroad.govt.nz](http://www.tollroad.govt.nz) to find a list of service stations.

\* Transaction fees apply. A toll is for travel in one direction on a toll road. Please pay within five days.

## Pay by account

This is the most convenient way to pay your toll and covers travel on all of the toll roads. There are three account options to choose from.

### Set & Go

Automatically tops up so you don't have to. Your account will automatically top up with your chosen amount from your debit or credit card or by direct debit when your balance falls below the minimum amount.

### Remind me

Reminds you to top up when your account is low. You will be sent an email\*\* when your account balance falls below the minimum amount. You choose when and how to top it up.

\*\* You will only receive a reminder email if you provide a valid email address when creating the account.

### Bill me

Monthly billing for commercial organisations. Travel on any New Zealand toll road as many times as you like and you'll be sent an invoice at the end of each month. Payment is by direct debit on the 20th of the following month or the first working day thereafter.

Sign up for your account at [www.tollroad.govt.nz](http://www.tollroad.govt.nz) or call us on **0800 40 20 20** between 8am and 5.30pm Monday to Friday or on Saturday and Sunday between 9am and 5pm.
