Information for year ended December 2009

## Purpose of this publication

New Zealand Transport Agency (NZTA) annually publishes comparative information on the safety of New Zealand roads. The information in this publication has been collected through the Crash Analysis System (CAS) which is an integrated system providing tools to analyse crash data and related data. It has a mapping capability integrated with a querying and reporting capability.

The information held within CAS includes precise location, which allows the importance of location to be determined (for example, in “black-spot” analysis) and also allows a comparison between local authorities.

## Data/Graphs

Because of the volume of information data and graphs have been published in separate documents, both available from the same website.

## Enquiries and Feedback

We are keen to receive your feedback and happy to deal with any enquiries regarding the data.

In the first instance we recommend that you contact the following road safety and CAS experts at your nearest NZTA office:

Auckland Chris Hewitt 09 969 9801

Hamilton Andrew McKillop 07 958 7856

Wellington James King 04 931 8917

Christchurch Geoff Holland 03 964 2845

Alternatively, please contact the Performance Measurement team at NZTA's national office in Wellington; ph 04 894 5400, or email [data@nzta.govt.nz](mailto:data@nzta.govt.nz)
